Name: _____

Go to the S and L web site and click on Practice Tests. You will find 10 self-scoring tests. Work your way through the tests. Both the 10 question and 20 question tests use the same questions. Do one set or the other if you wish.

As you complete each test, you will be shown your “report card” for that test. Print the report card and record the date and your score on this page. You should take this page and your print outs to your driving sessions with S and L to share with your instructor. The extra columns are for your use if you want to take a test more than one time.

Take time to review the correct answers for the items you missed.
